

A REGARDING NOVEMBERS INSTALLMENT: Happy Thanksgiving week, Journeymen! I wanted to first tell you all how thankful I am for you. You all are so wonderful and I love your passion for prophetic, spontaneous worship. I hold you all in my heart and pray for you and your families. May His unquenchable hope, His unbeatable joy, His everlasting love and comfort be ever on you and your house always.

The second thing I wanted to pass along is regarding this instrumental. I wasn't planning on doing an instrumental this month, but my voice decided to take a leave of absence for longer than I hoped. So, here we are. I have heard from several of you recently that you are enjoying the few instrumentals I've released here, so I may continue to pepper them in for you. This piece is completely spontaneous, live composition, as every session is. As I sat down at the keys, I kept hearing the word "radiant". And as I played, this theme of radiance flowed and opened up. Psalm 34 says that those who look to Him are radiant, and as I say worshiping and playing, there was such a rest, a beholding, and I began to feel the mystery of His radiance shining on me and in me. The awakening to radiance. I encourage you to utilize this for rest, meditation, beholding, fellowship with Him, study, sleep, etc. It is at 444hz (another reason I have decided to keep peppering in the instrumentals. It is more difficult to find music in the alternate master tunings, and I know that a lot of you value that. Please know that I am also doing all the regular sessions on here are done at 444hz as well, unless otherwise noted). I pray you are blessed beyond what you can imagine as you encounter Him.

Love you all,
Elisabeth
