

**\*A note regarding OCTOBERS installment:** There is a lot of instrumental/ambient space in this installment. That was led by the Spirit and purposeful to allow for you to enter into the realms He leads you into and take it all in. I hope that this blesses you. There was such a sweet spirit of the Lord, and healing anointing in the studio while I was recording. I saw visions of the air of heaven being breathed in by individuals and healing bursting forth in their lungs. From there the oxygen of heaven was dispersed throughout entire bodies carrying light and frequency that caused physical healing, emotional healing, and spiritual alignment and revelation. As you worship and engage with the realms of heaven He brings you into, relax, BREATHE, and receive!
